Dear Mrs. Rivera:

Further to your ISSN request of November 22, 2000, I am pleased to inform you that your serial has been registered as follows:

ISSN 1608-3849

Key title: Revista Médico Científica
Abbreviated key title: Rev. méd. cient.

Could you please send us another photocopies showing clearly the name and address of the publisher for this serial publication by return email?

Please note that the ISO standard on ISSN recommends to print the number preceded by the letters ISSN on each issue, preferably in the upper right hand corner of the cover.

The assigned ISSN is valid as long as the title of the serial remains unchanged. Please inform us of any title changes so that a new ISSN can be assigned.

Furthermore, I would like to draw your attention on the fact that different ISSN have to be assigned to the different editions of a serial published on different media (printed text, online, CD-Rom,...).

So, if your publications are also available on the web, could you please inform us of its titles and send us its electronic addresses (URL, e-mail) in order to assign an ISSN to the online versions?

Thank you for your co-operation.

Yours sincerely,

Mr. Alain Roucolle
